

3" HYDRAULIC SUBMERSIBLE HIGH PERFORMANCE PUMP

MODEL

S3CHL

3" X 2" (75 mm x 50 mm)

The S3CHL is ideal where small size, yet high performance pumping is required. The 1 1/4 in. diameter size and intrinsically safe hydraulic drive allow this pump to be installed in areas previously considered inaccessible. Applications include portable firefighting, mine and deepwell de-watering, barge and ship cargo pumping, tank stripping, irrigation, piling and dock jetting, and in-line booster pumping.
